FINAL SELECTION

SYNTHPOP / DARKWAVE

PRESS TEXT

M’ERA LUNA NEWCOMER CONTEST WINNER 2026

Over more than 25 years, German synthpop and darkwave band **Final Selection** has established a firm place in the scene. Four albums, numerous releases and performances at home and abroad have earned the band recognition well beyond Germany.

With an energetic show performed consistently live, **Final Selection** has appeared at numerous festivals across Europe and South America.

In **2023**, the band released its latest album, **"Siren's Call"**, through German label **Infacted Recordings**. The singles **"Beyond My Dreams"**, **"Gravity"** and **"Siren's Call - Raise the Flags"** reached leading positions in several scene charts.

Another milestone followed in **2026**: **Final Selection** won the **M'era Luna Newcomer Contest** and took the stage at one of Europe's most important gothic and alternative festivals.

Musically, **Final Selection** combines memorable synthpop melodies with the darker atmosphere of darkwave without relying on the genre's familiar clichés. Distinctive electronic sounds, emotional melodies and a commanding vocal presence shape the band's unmistakable identity.

On stage, that identity becomes especially clear: a dynamic, powerful performance in which electronic music is not simply played back, but brought to life.

And the story continues. **Final Selection** is working on new music and a new album for **2027**, with further live shows also on the horizon - the band's next chapter is already underway.
